AIRC General Meeting

25th and 26th of April the AIRC members met for the General Meeting in Friedberg/Germany in the ZKF office.

The AIRC members assemble for the final picture.

New President elected

Due to the leave of Hans-Peter Schneider as President, Erik Paul Papinski was elected as new AIRC President. The new President held a detailed speech about how the future automotive market will develop,

especially in relation to damage repair and Telematics.

New Board Member

Jason Mosely, General Secretary of the NBRA, was elected as new board member. Jason has a great insight in the automotive business, and has in past held the position of CEO at Solera/Audatex.

New member in AIRC

The AIRC is expanding in Scandinavia and the South of Europe.

The 2 years ago founded organisation SFVF in Sweden, represented by CEO Bo Ericsson (left), and the South Tirol organisation LVH, represented by Gregor Gross (mitt) and Harald Freitag (right), became member of the AIRC. We are happy to welcome your organisations in the AIRC, and are looking forward to a prosper and positive co-operation in the future.

Eurogarant update

Eurogarant is the only cross European quality

standard within repair of traffic damaged cars. Its layout and rules guarantee safety and high quality when dealing with repairs.

Eurogarant workshops must meet the minimum requirements in the standard. Every AIRC member can use the Eurogarant standard to ensure the NCAP stars in its country or region.

Next General Meeting

The next General Meeting takes place Wednesday the 24th and 25th April 2018 in Vienna/Austria. More information is distributed in good time.
